

Endovet Injectable
Reg. Key SAGARPA Q-0524-082*
FOR VETERINARY USE

Ivermectin
Endectocide parasitic Injectable Solution

DRUG DESCRIPTION

Every 100 mL contain
Ivermectin..... 1 g
Excipient c.b.p. 100 mL

Endovet® Injectable is a broad spectrum antiparasitic effective against internal and external parasites. Its active component ivermectin belongs to the avermectins group.

Endovet® Injectable is recommended for treating internal and external parasitosis caused by gastrointestinal, pulmonary, kidney and eye nematodes during their larval and adult phases. It's also recommended against ectoparasites such as scabies spreading acari and house fly larvae in Dairy Cattle, sheep, goats and swine.

Endovet® Injectable has a high effectiveness against nematodes and lasts up to 70 days which implies less treatments a year and protects against parasitic infections at paddocks. It also eliminates nematodes resistant to other antiparasitics as it has a different action mechanism.

Endovet® Injectable is very safe and it can be used in gestating and milking females, studs and young animals without any side effects.

Endovet® Injectable helps improve reproduction and productive parameters in treated livestock. Animals have a better appearance and grow faster. It can be used during vaccination periods.

DRUG USE

Broad-spectrum Injectable endectocide antiparasitic, also useful in treating gastrointestinal, pulmonary, kidney and eye nematodes during their larval and adult phases. It's also recommended against ectoparasites such as scabies spreading acari and house fly larvae in Dairy Cattle, sheep, goats and swine.

DOSAGE

Dairy Cattle: 1 mL per 50 kg.
Sheep and Goats: 0.5 mL per every 25 kg.
Swine: 1 mL per every 33 kg.

Frequency: Against nematodes one treatment every 3 to 4 months is advised, every new animal in the group must be treated.

ROUTE OF ADMINISTRATION

Subcutaneous

DRUG WARNINGS

Aquatic organisms are highly sensitive to ivermectin, therefore empty containers and any residue must be disposed of by burying or incinerating.
