Reg. Key S.A.G.A.R.P.A. Q-0524-004\*  
FOR VETERINARY USE

Ketorolac  
Non narcotic, non steroidal, anti-inflammatory  
Antipyretic analgesic in tablets

## DRUG DESCRIPTION

Each tablet contains

Ketorolaco tromethamin Equivalent to 5mg of Ketorolac base

Excipient C.B.P. 1 Tablet

Dolo-Vet® Tablets is a Non narcotic, non-steroidal, anti-inflammatory, Antipyretic oral analgesic in tablets; its active component ketorolac tromethamin belongs to the carboxylic acid group.

Dolo-Vet® Tablets is recommended for relieving pain, inflammation and fever caused by trauma and infectious processes in cats and dogs. Compared to other non steroidal anti-inflammatories,

Dolo-Vet® Tablets has more pain relieving power in each treatment.

Dolo-Vet® Tablets' effect is better than some opioids such as butorphanol and unlike this its extended use doesn't create tolerance or addiction in patients. It also helps patients to recover total mobility improving their life conditions.

Dolo-Vet® Tablets unlike steroidal anti-inflammatories doesn't interfere with the immune system response or healing process.

## DRUG USE

Dolo-Vet® Tablets is recommended for treating pain caused by trauma, sprains, scratches and postoperative conditions. Due to its anti-inflammatory effect it can also be used for treating conjunctivitis, uveitis, metritis, mastitis, vaginitis, arthritis and pneumonic processes.

Due to its antipyretic effect it's recommended for treating bacterial endotoxemias in cats and dogs.

## DOSAGE

Dogs: 1 tablet per 20 kg, in acute cases one tablet per every 10 kg.

Cats: 1/4 tablet per 5 kg

For chronic pain in dogs: 2 tablets for dogs heavier than 30 kg, one tablet for dogs weighed between 10 and 29 kg.
